

SUNDEE FUNDEE STRENGTH SERIES

4-Week Beginner Strength Plan

A simple, full-body plan for building confidence with strength training. Each week uses different workouts while repeating familiar patterns so you can learn, log, and progress.

WEEKS

4

DAYS / WEEK

45

MINUTES / DAY

RPE 6–8

EFFORT RANGE

Use it in the gym. Print this plan, check off each workout, write down your actual sets, then log the session in Sundee Fundee to adapt the next one around cycle phase, recovery, energy, and soreness.

How To Run It

BEGINNER

How To Use The Print Log

- Train four days per week. Rest days can move; keep at least one easier day after Day 2 or Day 3 when possible.
- Each session is built for 45 minutes: 5 minutes warm-up, 30 minutes strength, 6 minutes finisher, 4 minutes cool-down.
- Write actual load and reps in the blank set boxes. Later, enter the session in Sundee Fundee so your next workout can adapt.

45-Minute Session Flow

- 5 min warm-up: raise temperature and rehearse the pattern.
- 30 min strength: log each set in the blank boxes.
- 6 min finisher: conditioning, carry, or easy intervals.
- 4 min cool-down: breathing and target-area mobility.
- After training: enter actual sets in Sundee Fundee.

Why Log It In The App?

The PDF is your field notebook. Sundee Fundee is your training record: it tracks progress, remembers loads, and can adjust the next workout around recovery, cycle phase, energy, soreness, and schedule changes.

Week 1: Learn The Patterns

BEGINNER

Weekly Stimulus

Keep loads light enough to practice. The stimulus is movement confidence, not fatigue.

DAY	FOCUS	PRIMARY STIMULUS
Day 1	Full Body A	Squat, push, row, and core practice. You should finish feeling like you could do one more round.
Day 2	Hinge + Press	Posterior-chain practice with gentle shoulder work and loaded carries.
Day 3	Unilateral Foundation	Balance, single-leg strength, and upper-body control.
Day 4	Technique Volume	Lower-pressure practice day to build consistency and leave the week fresh.

Progression

Add reps first. Add load only after all logged sets are clean.

Recovery Rule

If energy is low or soreness is high, keep the workout but reduce one set from each strength block.

App Loop

Log the paper notes later so Sundee Fundee can adapt your next session.

Every workout in this week is different. Repeat the intent, not the exact exercises, unless a substitution fits your body better.

- Pull pattern: cable row, band row, chest-supported row, or pulldown.
